

## **Solidarity with the Peruvian people**

The PolitBureau of the Central Committee of the Communist Party of Venezuela (PCV) expresses its solidarity with the working class and popular sectors of Peru that are massively mobilizing against the civilian-military dictatorship installed after the coup d'état.

Dina Boluarte, the capitalists and military forces that support the coup government, have their hands stained with the blood of the Peruvian people. Since the coup assault, 49 people have already been murdered by state repression that is deepening with the declaration of a state of emergency and the militarization of the country. The bourgeoisie is determined to consolidate the coup regime with fire and blood, the dreadful massacre that took place in the city of Juliaca, where 17 demonstrators, mostly youths, were murdered, confirms this.

From the PCV we energetically denounce the crimes of the coup regime against the Peruvian people and demand justice. Likewise, we condemn the complicit silence of the international organizations and the so-called international community in the face of the systematic violation of the democratic freedoms and human rights of the Peruvian people by the coup government.

The PCV expresses its solidarity with the Peruvian Communist Party, the Patria Roja Communist Party of Peru, the General Confederation of Workers of Peru, with the national peoples' assembly, with the indigenous, peasant and popular organizations that are struggling and mobilizing massively for the reestablishment of democratic freedoms, the resignation of the de facto government, for new general elections in 2023 and the holding of a popular consultation for the convocation of a Constituent Assembly.

We call on the Venezuelan working class and working people to show their active solidarity with the Peruvian people facing a criminal civilian-military-employer dictatorship.

**Down with the coup regime of Dina Boluarte!**  
**Long live the national strike of January 19!**
