

Dear Comrades,

The Party of Communists USA (PCUSA) condemns the terrorist attack on the Cuban Mission in Washington DC by anti Cuban terrorists.

The Cuban people overthrew the Batista dictatorship in 1959, and established power for the poor and working people of Cuba. The United States never forgave Cuba for this, and started a multiple decade long campaign against the Cuban people, including numerous terrorist attacks on Cuban soil and illegal sanctions which have been voted against in the UN by almost all of its member states.

This terrorist attack is the latest of a long campaign in which the Cuban people have had to endure. Against all costs, Cuba survives and continues to remain a beacon for justice for all poor and working people across the world.

Viva Cuba!

Long live Socialism-Communism!

Long live Marxism-Leninism!

Long live the Anti-Imperialist Struggle!
