

Party of Communists USA statement on the arrest of Alejandro Cao de Benos

The United States and its war machine are working to criminalize Korea solidarity activism and are now seeking to get a Spanish national deported and imprisoned in the United States on charges related to United States citizens. Any Korean solidarity activism is seen as breaking sanctions imposed by the United States on the Democratic People's Republic of Korea.

Comrade Alejandro Cao de Benos has been leading the Korean Friendship Association since the year 2000 and was involved with Korean solidarity in his youth in the 1990s. Comrade Alejandro has done excellent solidarity work over his lifetime. The Korean Friendship Association has done exemplary activity under the leadership of Alejandro, and it is for this reason that he is attacked by the United States government.

This is not the first run in for Comrade Alejandro, who was already attacked by NATO itself, trying to infiltrate the Korean Friendship Association with a Danish military officer, or when Alejandro's passport was restricted in Spain. Alejandro is a beacon of integrity and has continued his solidarity work regardless of any submerged rocks in his path.

The Political Bureau of the Central Committee of the Party of Communists USA sends our support to Alejandro Cao de Benos and the Korean Friendship Association.
